

Falk™ Lifelign® G20

Precision. Power. Performance.

You want a trusted name when it comes to providing engineered power transmission products that improve productivity and efficiency. Rexnord provides superior products for your industrial applications world wide. We work closely with you to reduce maintenance costs, eliminate redundant inventories and prevent equipment downtime.

Applications include:

- ▶ pumps
- ▶ paper machines
- ▶ general purpose machinery

Falk™ Lifelign® Gear Couplings

Large bore capacity gear coupling with superior torque ratings. Available in both single and double engagement designs. Falk is a Rexnord brand.

Ex Certified II 2GD c T5

Falk™ Lifelign® G20

Features

- ▶ Large bore capacity
- ▶ High torque ratings
- ▶ Alloy steel option
- ▶ Lubrication through sleeve

Benefits

- ▶ Smaller coupling size
- ▶ Smaller coupling size
- ▶ Increased bore capacity
- ▶ Reliable lubrication

Torque Demands Driven Machine	Typical Application for Electric Motor or Turbine Driven Equipment	Typical Service Factor
	Constant torque such as centrifugal pumps blowers and compressors	1.0
	Continuous duty with some torque variations including plastic extruders and forced draft fans	1.5
	Light shock loads from metal extruders, cooling towers and log haulers	2.0
	Moderate shock loading as expected from a car dumper, stone crusher, vibrating screen	2.5
	Heavy shock load with some negative torques from reciprocating pumps, compressors, reversing turnout tables	3.0
	Frequent torque reversals such as reciprocating compressors with frequent torque reversals which do not necessarily include reverse rotations	Consult Rexnord Engineering
